

ANGELA

An enthusiastic tutor with experience of teaching the new GCSE Mathematics, and A Level, Angela qualified as a class teacher 23 years ago and has gained a wealth of experience during this time. Angela holds a first-class honours degree in Mathematics and has a passion for all things mathematical.

Angela's expertise in mathematics means that she is a popular teacher with GCSE and A Level pupils; working by the philosophy that tutoring is as much about listening as it is about talking, Angela is extremely skilled in identifying pupil misconceptions and tailoring her teaching to the individual needs of the student. Angela has current, in depth working knowledge of the GCSE and A Level specifications and is currently undergoing personal professional development with the A Level Further Maths syllabus. In tutoring sessions Angela ensures that students are equipped to apply Mathematics within the context and demands of the exam and regularly revisits topics to ensure that students' retain their knowledge, understanding and build confidence in their mathematic ability.
